

Introducing  
Adaptive Riding Clothing

INDEPENDENCE | DAY

no buttons. no tags. no zippers. no worries ... we're gps-enabled!

## What Makes Our Adaptive Riding Habit So Special?

Extra-wide opening at pant bottom for easy step in.  
Pant leg closes with soft Velcro.

Sensory-smooth pants that fit front or back.  
Wide elastic waist for making sitting comfortable.  
Attractive color-contrast “helping handles” for easy pull up!

Independence Day's Riding Shirt helps equestrians of **ALL** abilities get ready to ride faster and easier. Keeps them comfortable in and out of the ring.

ID Riding Shirt's Break Away Collar is soft yet sturdy to stand up prim and proper!

Collar attachment has easy on snaps so rider waits until ringside to attach.

No more "sensory issues" all day long!

After show time, if a rider wishes to spend the rest of the day not wearing the collar, ID has now made that an option.

Don't forget!

Riding Shirt will also be available in white. Other collar options also available!

Independence Day would like to thank all the riders who inspired our new equestrian collection, including Isaiah, wearing ID's riding habit at the Hampton Classic.

Congratulations Isaiah!
